Experience

Field Survey: Qinghai China. 08/2010

Organized by the Chinese Academy of Social Sciences in association with Tibet University and Plateau Perspective from Canada (NGO), the field survey studied Eco-migration and Nomad Settlement in the Sanjiangyuan regions in Yushu, Qinghai province of China.

- Worked as an assistant for Professor Fachun Du and Professor Tashi Gonpo on survey record-keeping and document archiving, and coordinated the survey activity expenses and financial planning.
- Interviewed multiple individuals with practically orientated questionnaires on settlement issues.
- Worked with international organizations and conducted reports and communications in English.
- Earned extensive experience in practicing public policy and administration
- Learned surveying techniques and studied impacts of public policies upon target groups of individuals.

International Policy Conference Attendee: Kumamoto Japan. 03/2010

Held by Fudan University, Kumamoto City Hall and Kumamoto University in Kumamoto, Japan, the Chinese-Japanese Policies Discussion Conference presented reports from numerous scholars, researchers and government administrators on the public policies of Japan and China.

- Actively attended the group discussions and field studied the public policy enforcements in the city of Kumamoto organized by the local government. The topics covered education, economics, ethics, etc.
- Gained a deep understanding of the policy comparisons among different environments, such as social and economical levels and political backgrounds.

Chinese National Radio Internship: Beijing. 08/2009

- Won the internship out of more than a dozen competitive candidates for a position in the Chinese National Radio (CNR) Station.
- Implemented as an intern journalist and created audio records for the interviews.
- Learned the daily operation protocols of a radio station and participated in the live broadcasting during difference hours of a day.
- Wrote and edited commercial advertisement lines for different products and activities, which were widely accepted and broadcasted by different programs at the radio station.

Social Survey: Shanghai China. 06/2009-07/2009

- Participated the survey program of “Smooth, so that the World Expo is better” for Shanghai public transportation signs and systems.
- Collected raw field data and image samples for the overall project.

Field Survey: Jilin China. 08/2008

Organized by the State Ethnic Affairs Commission, the survey studied the regional education situation of Yanbian City in Jilin, China.

- Worked on survey records keeping and interviewed a local education administrator.
- Accomplished a research paper based on this survey and awarded a top score for it from a core course in the department.
